ARTISAN STAINS

ARTISAN STAINS

CHARACTERISTICS OF WOOD

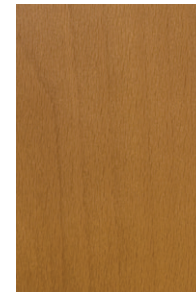

Your hardwood cabinetry is a product of nature. How wood looks and feels is affected by climate, soil nutrients, growing season, season of harvest and age at harvest. Every piece of wood, even from the same tree, carries slightly different color, texture, and grain. These natural variations and imperfections add to the wood's appeal and overall character.

Precision Cabinets uses only the highest grade stock available.

CUSTOM GLAZING

Custom glazing is an option we offer to our clients looking to add a little something extra to their design. Glazing adds a level of visual contrast and depth to cabinetry giving it a subtle, antique feel.

DISTRESSING

Precision Cabinets uses a variety of techniques to recreate the signs of aging. Whether it's the gentle wear marks of a well cared for heirloom or the pronounced indicators of generations of heavy use, we can create the perfect distressed finish for your project.

FEATURES & BENEFITS

BRING OUT THE BEAUTY

With our 13-Step process and hand applied stain, we bring out the beauty of the wood you have selected. Stain by its very nature is made to show the wood grain and our process is designed to enhance its visual depth.

10 YEAR LIMITED WARRANTY

Warranty covers the following:

- Finish
- Cabinet Boxes
- Doors
- Drawers
- Drawer Faces
- Shelves
- Accessories
- Panel Ends

CATALYZED FINISH

Our stain and top coats are catalyzed products, a true improvement on traditional staining methods.

A catalyzed stain doesn't dry like the paint on your walls, it hardens like concrete to produce a smoother and more durable finish, ensuring that your beautiful new cabinetry withstands the test of time.

KCMA ENVIRONMENTAL STEWARDSHIP PROGRAM

This program's stringent set of environmental criteria includes:

- Air Quality
- Product & Process Resource Management
- Environmental Stewardship
- Community Relations

CUSTOM FINISH PROGRAM

Our Custom Finish Program is here to create stain and texture combinations to meet your design needs, resulting in a more personalized product:

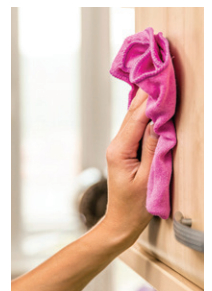

- Distressing
- Full Glazing
- Accent Glazing

CARE & MAINTENANCE

Maintaining your new kitchen is super easy and will increase the useful life of your cabinets. Our handy online guide can be found at:
