

PRECISION CABINETS

ECHO WOOD

ECHO WOOD

SUSTAINABLE WOOD PRODUCT

A reconstituted wood product, Echo Wood replicates nature's most desired species without impacting the sustainability of our great forests. From quarter sawn oak to wenge, these products boast an increased level of consistency in both color and grain not found in traditional hardwoods.

FEATURES & BENEFITS

AUTHENTIC TEXTURE

Echo Wood's common wooden fiber is processed through computer design and high technology that replicates natural, rich wood. Purposeful knots, cracks, and planking create a familiar feel reminiscent of solid wood.

SUSTAINABILITY

Echo Wood's collection of engineered wood veneers are FSC certified and produced to be defect-free as well as environmentally conscious by using pre-harvested wood fiber and non-toxic water-based dyes.
